

Are you considering a future in Engineering?

Apprentice Maintenance Technician

Mars Petcare, Melton Mowbray

In the world of Fast Moving Consumer Goods manufacturing, nothing ever stands still and neither should you. We are part of Mars, producing globally recognised brands Mars Bar®, Snickers®, Dolmio® and Uncle Ben's®. In Melton we focus on the Pedigree® and Whiskas® brands. We need individuals with a passion for engineering who love to get stuck in and want to excel.

This apprenticeship will develop you for a future in engineering. Mars Petcare will open up a world of opportunities.

What do you need to apply?

- Passion for engineering
- Motivation to learn new processes and techniques
- 5 GCSEs, minimum B in Maths and A-C in Science & English

Year 1

Full-time classroom learning to study Performing Engineering Operations level 2 certificate and Mechanical / Electrical engineering BTEC level 3.

Year 2

Day release to study your BTEC, and study your level 3 NVQ in "Engineering Maintenance in the Work Place".

Year 3 & 4

Finish your NVQ and study the electrical or mechanical pathway at HNC level.
