### **\*What are Progress 8 and Attainment 8?**

<https://www.gov.uk/government/publications/progress-8-school-performance-measure>

Progress 8 and Attainment 8 are two measures that schools will be judged against from 2016. They are designed to encourage schools to offer a broad and balanced curriculum at KS4.

Progress 8 is based on students' progress measured across eight subjects:

- English;
- Mathematics;
- Three other English Baccalaureate (EBacc) subjects (sciences, computer science, geography, history and languages).
- Three further subjects, which can be from the range of EBacc subjects, or can be any other GCSE or approved, high-value arts, academic, or vocational qualification.

Attainment 8 is the students' average achievement across these eight subjects.

From 2016, the floor standard will be based on schools' results on the Progress 8 measure. Although Progress 8/Attainment 8 are intended to encourage students to take eight qualifications, this is not compulsory. If a student has fewer than eight qualifications or the qualifications they do sit are not on the list of subjects which count towards Progress 8/Attainment 8, they will score 0 points for the unfilled slots.

The DfE have produced several documents with further details on Progress 8/Attainment 8:

- Factsheet: Progress 8 measure (published February 2014)
- Progress 8 school performance measure: Information for school leaders and governing bodies of maintained schools, academies and free schools (published March 2014)
- Progress 8 early opt-in: Terms and Conditions for schools (published June 2014)
- Progress 8 measure in 2016: Technical guide for maintained secondary schools, academies and free schools (published May 2014)
