

RO18 -
Health and well-being for
child development
EXAMINED UNIT
1HR 15 MIN

Underpins all of the other learning in this qualification. Students will develop the essential knowledge and understanding in child development, covering reproduction, parental responsibility, antenatal care, birth, postnatal checks, postnatal provision, conditions for development, childhood illnesses and child safety. Study until June 2019 for exam in year 10

RO19
Understand the equipment
and nutritional needs of
children from Birth to five
years
Coursework Unit

Knowledge of the equipment needs of babies and young children and an understanding of the factors to be considered when choosing appropriate equipment to meet all of these needs. This topic will also cover nutrition and hygiene practices and students will be given the opportunity to investigate feeding solutions, comparing these to nutritional requirements and evaluating the outcomes
From June 2019 through until January 2020 Coursework to be submitted by January 30th

RO20
Understand the development
of a child from birth to five
years
Coursework Unit

Understanding of the development norms from birth to five years and the stages and benefits of play. Students will gain knowledge of, and skills in, developing activities to observe development norms in children up to the age of five. This topic will include researching, planning and carrying out activities with a child and observing and evaluating these activities, as well as comparing the child to the expected development norms. Study from January 2020 through to May 2020 to be submitted to OCR

Help & Support

If you need access to a computer room you can use room O5 at lunch or after school. See Mrs Petch or Mrs Pryer to arrange this.
