

June 2019

Dear Parent/Guardian

Firstly, we hope your child has enjoyed their Taster Days and feels ready for September.

In order to help prepare them for their first term at Springwood, we would like them to complete three tasks, details of which are below.

### **Task One**

Choose a book to read over the summer. Take a 'selfie' with your chosen book and print it out. Write a message on the back of the photo to your new English teacher sharing some thoughts about the book.

### **Task Two**

Practise your times tables. We know you have been working hard on learning your times tables and we want you to keep doing this over the summer holiday so that they don't 'go rusty'. We will be testing your tables regularly throughout Year 7 and running competitions between tutor groups! We will give you a times tables rock star login on your taster day and the form group that completes the most tasks over the holidays will win a prize.

### **Task Three**

Complete the *Spot the Hazard* safety sheet that you were given during your science taster lesson.

Tasks one and three will be collected in during the first English and science lessons in September. The Mathematics department will be completing regular times tables tests within lessons.

If you or your child require any further explanation or support in preparing for September, please feel free to contact me.

Yours faithfully

*S. Aviss*
