

Springwood High School Science Curriculum Plan

Our Vision:

To ensure that we provide an excellent quality of Science provision for all students in the local area, enabling them to access higher level Science based careers.

Exam boards: GCSE AQA trilogy and separate sciences, Year 12/13 OCR Chemistry A and Physics A, Year 12/13 AQA Biology, Medical Science

Brief overview of topics, themes, skills or key questions for each term:

Year	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
7 – Throughout practical skills, numeracy skills and application will be developed	Matter Electricity Spaced practice	Matter Electricity Cells Chemical reactions Spaced practice	Cells Chemical reactions Spaced practice	Chemical reactions Forces Ecology Robotarium British Science Week	Forces Ecology	Forces Ecology Science Capital Literacy in science SLD lessons
8 - Throughout practical skills, numeracy skills and application will be developed	Energy Solutions Spaced practice	Energy Solutions Space Organ systems Spaced practice	Organ systems Space Disease and evolution Spaced practice	Principles of chemistry Disease and evolution British Science Week	Principles of chemistry Disease and Evolution Spaced practice	Bronze Crest Award Samsung challenge Literacy lessons Graphing skills masterclass

Springwood High School Science Curriculum Plan

9 Throughout practical skills, numeracy skills and application will be developed	Biology – Cells, spaced practice	Biology – Cells, health, spaced practice	Biology – Health	Biology – Health, British Science Week	Biology – Ecology	Biology – Ecology, spaced practice
	Chemistry – Atoms and the periodic table, spaced practice	Chemistry – Atoms and the periodic table, bonding	Chemistry – Bonding	Chemistry – Bonding, Earth, British Science Week	Chemistry – Earth, spaced practice	Chemistry – Earth, spaced practice
	Physics – Energy, spaced practice	Physics – Energy, Electricity	Physics – Electricity	Physics – Electricity, British Science Week	Physics – Electricity, forces, spaced practice	Physics - Forces, spaced practice
	Astronomy – Planet Earth, celestial observation	Astronomy – Celestial observation, the lunar disc	Astronomy – The lunar disc, exploring the moon, exploring the Solar System	Astronomy – Exploring the Solar System, Solar System observations	Astronomy – Early models of the Solar System, planetary motion and gravity	Astronomy – Solar astronomy, The Earth-moon-sun system
10 Throughout practical skills, numeracy skills and application will be developed	Biology – Cell biology and organisation	Biology – Organisation and spaced practice	Biology – Organisation and infection and response	Biology – Infection and response and spaced practice	Biology – Spaced practice and bioenergetics	Biology – Homeostasis and spaced practice
	Chemistry – States of matter and separation techniques, chemical reactions	Chemistry – Chemical reactions, bonding	Chemistry – Bonding, quantitative chemistry, spaced practice	Chemistry – Quantitative chemistry, energetics, spaced practice	Chemistry – energetics, collision theory	Chemistry – collision theory, spaced practice
	Physics – Atomic structure, energy	Physics – Energy, spaced practice, electricity	Physics – Electricity, spaced	Physics – Particle model	Physics – Particle model, spaced practice, forces	Physics– Forces, space

Springwood High School Science Curriculum Plan

	Astronomy – Time and the Earth-moon-sun cycles, formation of planetary systems	Astronomy – Formation of planetary systems, exploring starlight	practice, particle model Astronomy – Exploring starlight, stellar evolution	Astronomy – Stellar evolution, our place in the galaxy	Astronomy - Cosmology	
11 Recap of content and exam preparation all year, key skills, practical's and math's	Biology – Homeostasis, inheritance and spaced practice Chemistry – organics, spaced practice Physics – Waves, paper 1 recap of content exam preparation	Biology – Inheritance and ecology Chemistry – analysis, Earth's atmosphere, Earth's resources Physics – Waves, electromagnetism	Biology – Ecology and spaced practice Chemistry – exam lead in Physics - Electromagnetism, Paper 2 recap of content exam preparation	Biology - Exam lead in Chemistry - exam lead in Physics - exam lead in	Triple: Exam lead in Combined: revision pack Biology - Exam lead in Chemistry - exam lead in Physics - exam lead in	
12	Biology – biological molecules and cell structures Chemistry – Atoms and reactions (I), electrons bonding and structure (I),	Biology – biological molecules, cell structures, spaced practice, protein synthesis, immunity and transport across membranes Chemistry – Atoms and reactions (II), electrons bonding and structure (II), basic organic	Biology – Spaced practice, transport across membranes, immunity and exchange and transport Chemistry – Atoms and reactions (III), periodic table (I), Alcohols,	Biology – Transport across membranes, immunity, exchange and transport and spaced practice Chemistry – periodic table (II), physical chemistry (I), Alcohols,	Biology – Gas exchange, immunity, diversity and selection, classification and diversity, exchange and transport Chemistry – Physical chemistry (II), periodic table (II), Alcohols,	Biology – Classification and diversity, spaced practice, energy transfers, populations and ecosystems and required practical catch-up. Chemistry (Yr13) – Aromatic Compounds,

Springwood High School Science Curriculum Plan

	basic organic chemistry and hydrocarbons (I). Physics – Quantities and units, electricity Medical science - Unit 3 coursework: Assignment A and C	chemistry and hydrocarbons (II) Physics – Electricity, motion, forces Medical science - Unit 3 coursework: Assignment B and D	Haloalkanes & Analysis (I) Physics – Waves, work energy and power, materials Medical science - Unit 1: Principles of Human Physiology, Anatomy and Pathology	Haloalkanes & Analysis (II) Physics – Waves, materials Medical science - Unit 1: Principles of Human Physiology, Anatomy and Pathology	Haloalkanes & Analysis (III) Physics – Newton's laws, quantum physics, circular motion, gravitational fields Medical science - Unit 1: Exam revision and Exam	Carbonyls & Acids (I), Rates equilibrium and pH(I), Energy (I) Physics – Oscillations, thermal physics Medical science - Unit 2: Health Issues and Scientific Reporting
13	Biology – Homeostasis, respiration, photosynthesis, mutations and gene expression and spaced practice Chemistry – Equilibrium & pH (I), carbonyls & carboxylic acids, energy (I), benzene	Biology – Mutations and gene expression, genetics, stimuli and response, gene technology and spaced practice Chemistry – Equilibrium & pH (II), energy (II), carbonyls & carboxylic acids	Biology – Populations and evolution, genetics, stimuli and response, gene technology, nervous coordination and spaced practice Chemistry – organic nitrogen compounds (I), analysis (I), polymer chemistry	Biology – Nervous coordination and exam prep Chemistry – organic nitrogen compounds (II), analysis (II), Transition metals,	Biology – Practical skills, essay skills, numeracy skills and exam preparation Chemistry – Exam preparation	

Springwood High School Science Curriculum Plan

	Physics –, oscillations, astrophysics and cosmology	(II), redox chemistry Physics – electric fields, capacitors, electromagnetism	Physics – nuclear particle physics, electromagnetism, medical imaging	spectroscopic analysis Physics – spaced practice	Physics – Exam preparation	
	Medical science - Unit 2: Health Issues and Scientific Reporting	Medical science - Unit 2: Health Issues and Scientific Reporting Medical science - Optional unit coursework: Assignment A	Medical science - Optional unit coursework: Assignment A and B Medical Science – Unit 2 Exam	Medical science - Optional unit coursework: Assignment B and C	Medical Science – Exam resit opportunities and preparation	

Enrichment Activities:

Super Learning Days: Year 7 zoo trip, CREST Award

Competitions: CREST Award end of year 8, British Physics Olympiad Senior Challenge in year 12, British Science Week, Chemistry Olympiad, Biology Olympiad

Trips: Year 12 Sizewell trip, Year 12 Holkham trip

Clubs & Support: After school support sessions, Year 7 and 8 Discovery Crest Award, Year 9 Silver Crest Award, CanSat, Uplearn, Tassomai
