How people coped with isolation during the Coronavirus pandemic).</p> <p>Questionnaires</p> <p>You must design a questionnaire, with between 6-8 questions on your given area. You will need to break your topic up into smaller questions.</p> <p>For example:</p> <ol style="list-style-type: none"> 1. What is your age? 2. Are you male or female? 3. | 11 | Research Methods: Interviews | <p>Interviews You must design a set of interview questions (between 6-8) on the same area as your questionnaire (You can use the same questions or pick new ones, this is up to you). For example:</p> <ol style="list-style-type: none"> 1. Please give me 2 reasons why you decided to go travelling? 2. Did you travel alone? Why? 3. Would you go travelling again? <p>This time ask different people from those who completed your questionnaire. Aim to carry out your interview on at least 3 people.</p> <p>Presenting your interview findings You will need to draw conclusions from your interviews and explain what you have found. http://www.sociology.org.uk/revgrm1.pdf</p> | |
| 12 | Research Methods: Evaluating methods | <p>Evaluating questionnaires and interviews: Answer the following essay question:</p> <p>What are the positives and negatives of using questionnaires and interviews when collecting data?</p> <p>You will need to explain both the positives and negatives of using both <u>questionnaires</u> and <u>interviews</u>. You must also explain any difficulties you had and why, and come to an overall conclusion of which method worked best for you.
