

**Entry  
Requirements**

*All students at  
Springwood  
Sixth Form*

**About the Programme**

Not only is it important to do well in academic studies in order to secure a place at University or a good job but it is important to enhance your 'character' and participate in a wide variety of other activities. University admissions tutors and workplace recruitment tutors are now increasingly looking for more. They want to see rounded individuals who have attempted to broaden their horizons. They want to see young adults who have gathered experience in various fields of life and hence developed a broad range of skills and attributes.

Springwood Sixth Form students are encouraged to participate in 'Super-Curricular Activities'. These are activities that offer extra stimulation and challenge beyond the curriculum. These activities are varied and include:

- Futures Lectures
- Work Experience
- Volunteering and Mentoring
- Charity fundraising
- Musical activities

**Year 12 Enrichment**

This is an hour commitment per week (normally on a Wednesday afternoon) in addition to your timetabled lessons. It may be a scheduled lesson or an independent session. It is aimed at broadening the experiences of the students and gives them opportunities to develop the soft skills universities and employers commonly look for in applicants

- Leadership
- Organisation
- Resilience
- Independence
- Communication

**Future  
Applications**

*University*

*Apprenticeships*

*Employment*

*"Giving  
Springwood Sixth  
Formers a  
competitive  
advantage."*
