

## **Year 12 into 13 Summer Task 2021**

### **Subject: Geography**

Summer Task instructions:

Based on the lessons by Mr Haymes and the final lesson with Mr Phillips, please complete section A and section B of the NEA.

Section A:

Title/Hypothesis – Use your NEA proposal form sheets.

Literature review of geographical theory

Which location are you going to? (Holderness Coast) and why is it a justifiable site for your enquiry.

Section B:

Methodology

Why the technique has been used?

Where and how it has been used?

Sampling strategies used – why are they effective?

Ethical considerations

Aim for around 500-1000 words for this in total.

Please submit this task on Google Classroom for the first week back in September.

Task Two:

Summarise and create revision notes for the four topics studied in Y12. Focus specifically on case study knowledge. This will need to be placed in your geography folder for inspection the first week back.

Task Three:

Make notes on the following areas

1. Ocean and terrestrial photosynthesis play an important role in regulating the composition of the atmosphere. Soil health is influenced by stored carbon, which is important for ecosystem productivity.
2. The process of fossil fuel combustion has altered the balance of carbon pathways and stores with implications for climate, ecosystems and the hydrological cycle.

Support:

You can email [geography@springwoodhighschool.co.uk](mailto:geography@springwoodhighschool.co.uk) any questions relating to the task or the A-level course.
