How to talk to someone you are worried about

Talking about suicide will not make it happen!
Talking about it lets the person know that there is someone they can talk to about how they feel.

THINGS TO SAY TO HELP START THE CONVERSATION:

Start by asking **"Are you OK?"** Ask twice as they may say they are fine, when they are not.

Emphasise and listen without judging them.

Don't be afraid to ask them if they're having suicidal thoughts.

"Are you thinking about harming or killing yourself?"

Reassure them that desperate feelings are common and can be overcome. Offer to help them find support.

Encourage them to tell someone.

How to tell if a friend or someone close to you is feeling suicidal

You may hear them say these sorts of things:

"Sometimes I feel like I just want to die"
"I'm worthless".
"There's no reason for me to live".
"No one understands".
"You're better off without me".
"If I died, would you miss me?"
"I'll try anything, I'm not afraid to die".
"I just want everything to stop".
"I can't do this anymore".
"I wish I had never been born."

You may see them do these sorts of things:

Giving away things most valuable to them.
Self-harming.
Drinking more or taking drugs.
Making funeral arrangements/ saying goodbyes.
Suddenly 'recovered' after a period of depression.
Quitting activities that were important to them.
Withdrawal from family and friends.

These are some of the common signs, but sometimes there are no warning signs.

What to do if you are worried about someone in immediate danger

- Call 999 – Stay with them until help arrives, if it is safe.
- Norfolk First Response Line: 0808 196 3494
- Text 85258 (24/7) Young Minds Crisis Messenger Service.

Always remember to put your own safety first.

Look after yourself – If you have supported someone to find help you may be left with difficult feelings.

Speak to a trusted adult so you're not dealing with it on your own or see our local contacts.

If you or someone you know are feeling emotionally distressed, try using this '5-4-3-2-1 Grounding Technique' to find some calm:

- 5 **Name 5 things you can see around you**
- 4 **Name 4 things you can feel**
(clothes, warm, cool, breeze, touch)
- 3 **Name 3 things you can hear right now**
- 2 **Name 2 things you can smell**
(or, 2 things you like the smell of)
- 1 **Name 1 thing you like to taste**

Breathing exercises can also help - Take some slow deep breaths in and out from your belly.
