

Dear parent/guardian

We would like to invite you to a parents' information session regarding the forthcoming Guided Choices process that your child will use to choose their GCSE subjects.

The sessions will take place at either 6pm or 7pm on Wednesday 27th March, 2024, in the Pete Hopkins Hall (please enter via the main reception).

We will explain the Guided Choices process, including how the students can make their choices online, along with an overview of what the students will be doing the following day (Super Learning Day). There will also be an opportunity after the presentation to talk individually with a member of staff regarding the process, should you wish.

Students have been shared links to videos on each of the subject choices available, and so you will be able to view these in your own time over the Easter holidays. There will not be the opportunity to visit subjects or talk directly to subject teachers. You will, however, be able to discuss subjects your child currently studies at the online parents' evening on 18th April 2024 - booking for this will be available soon. Year 9 reports will also be available from 27th March and can be viewed via the ParentApp.

To register your attendance at one of the information sessions please use the following link:
