

When to be concerned?

When you become aware of information that leads you to be concerned about the physical, emotional or sexual wellbeing of a child.

The information you may have may not be enough on its own for a child protection referral. However, it will help your **Designated Safeguarding Lead (DSL)** to make a decision about the risk of harm to the child.

If a pupil speaks to you and asks you not to tell anyone else explain that you cannot promise to do that. Explain it is your responsibility to keep them safe from harm and may therefore have to pass on the information to a safeguarding lead.
