## Education Plan

Dear Year 10 Parents/Carers

I am writing to you with reference to the current situation and imminent school closure.

Outlined below is an Education Action Plan to enable you to support your child's continued education whilst at home.

The main vehicle we will be using to communicate relevant work is Show My Homework. Teachers will regularly update the app with learning that they would like your child to complete.

Departments will also use subject specific resources such as websites, past papers, topic tests and PowerPoint presentations.

### Maths

Your child has been issued a login for Hegarty maths. We will set work both via this website and SMH. A list of additional support will be added to SMH shortly. Any queries please email:

[Maths@springwoodhighschool.co.uk](mailto:Maths@springwoodhighschool.co.uk)

### English

Your child was given login details for educake.co.uk in English today so they can access tasks online. If they were not in the lesson, the login has been emailed to your child's school account. Please email [j.wilson@springwoodhighschool.co.uk](mailto:j.wilson@springwoodhighschool.co.uk) to get the login if they can't access their email account. Students who take Geography have an account set up already.

### Science

Your child has already been sent a link on Show My Homework to join a class on Seneca. On a weekly basis new tasks will be set, along with quizzes on Show My Homework to be completed. Written tasks will be uploaded to Show My Homework after the Easter holidays.

**All subjects** will keep you updated via Show My Homework, please do check regularly for this.

Should you wish to contact me during this period of closure, please do so using the following email, and I will do my best to get back to you:

[D.Hobbs@springwoodhighschool.co.uk](mailto:D.Hobbs@springwoodhighschool.co.uk)

I cannot emphasise enough how important it is that your son/daughter continues to learn, retrieve and practice, across all subjects, throughout this extended period of time going forward into year 11.

Keep safe.

Kind regards

Mr D. Hobbs  
Assistant Headteacher
