

Sixth Form Bricklaying Summer Task 2024

To produce a detailed presentation on different types of brick arches

You will need to research and include the following:

- What is the correct terminology used when identifying particular areas on an arch?
 - What are the different types of arches?
 - Photos of any brick arches you may come across when you are out and about
 - Why are arches used?
 - What is meant by a 'KEY' brick?
 - How does an arch work?
-
- You will need to ensure that you have the correct PPE (steel toe capped boots, overalls) ready for your first day in September. Also please purchase a tape measure.
 - If you wish to bring your own trowel, that is not a problem, I encourage this if you can. If unable too, do not panic we have trowels available
 - Any problems, questions or queries please email Mr Pightling on j.pightling@springwoodhighschool.co.uk
